*... let us strive on to
finish the work we are in,
to bind up the nation's
wounds, to care for him
who shall have borne the
battle and for his widow
and his orphan*

A New Approach

The Utah Veterans Homes embrace the Eden Alternative Philosophy.

The Eden Alternative is an international not-for-profit organization dedicated to transforming care environments into habitats for human beings that promote quality of life for all involved. It is a powerful tool for inspiring well-being for “Elders” and those who collaborate with them as care partners.

The Eden Alternative’s principle-based philosophy empowers care partners to transform institutional approaches to care into the creation of a community where life lived harmoniously. The main focus is to eliminate loneliness, helplessness and boredom.

The Eden Alternative is the beginning, not the end, of an epic journey. It shows us what is possible and encourages us to continue exploring — to continue asking how we can improve the well-being of our Elders and, in doing so, bring a new Elderhood into being.
Dr. William Thomas
